

# ENDLESS POOL ELITE

## STROKE TRAINING SYSTEM

*Elite One-on-One Coaching*

**Introducing the Endless Pool Elite**, a counter-current swimming machine that will revolutionize swim instruction. The Elite offers coaches a unique and unprecedented opportunity to analyze every element of their swimmers' stroke, while providing both coach and athlete instantaneous, real-time feedback via multiple adjustable cameras and mirrors. Most importantly, the Elite is fast, strong and smooth — faster by far than any swimming machine on the market today — as smooth as the original flume in Colorado Springs. And with units as small as 8' x 14', it fits on any deck... and in any program.

For two decades, Endless Pools, Inc., has been the world leader in counter-current swimming machines, selling over 16,000 units to homeowners, physical therapists and masters swimmers for swimming, water exercise and recovery. Our new 7.5 HP Elite pool is designed specifically for top swimmers: with a 51 second 100-yard pace, it even challenges sprinters. With the Elite, a coach can increase the current speed to a swimmer's race pace — see precisely when and how their stroke breaks down — and fix it. Immediately. You can't do that yelling across three lanes of a 50-meter pool.

The Elite is also ideal for teaching all levels of swimming, from young beginners to Masters — generating welcome income for your program. There is no better one-on-one teaching environment.

Overhead mirror for instant feedback.

0:51 hundred-yard pace

### Endless Pool Elite Specifications and Options

- 8' x 14' swimming area (9'4" x 15'4" minimum footprint)
- 44" water depth
- modular steel construction
- commercial membrane
- 7.5 HP 2 propeller swim current generator
- reinforced acrylic water flow and conditioning system
- three 59" x 18" stainless steel VGB-compliant suction grills
- perimeter coping
- commercial-grade water quality system
- automatic chemistry controller (ORP, pH)
- lockable retractable security cover

*"I didn't realize I would have so many swimmers at my highest level who would do a lot of significant development in this pool. It's nice when it's all set up right there. You hit one button and you're recording. You're swimming right over the mirror, so a lot of immediate feedback. Everybody knows that we have to train, but if you really want to improve in the sport of swimming you're going to improve the technical side. You're going to figure out how to create more propulsion and minimize resistance. You do those two things, you become a faster swimmer. Throw some training on top of that—who knows, maybe an Olympian."*

**– David Marsh**

CEO & Director of Coaching for SwimMAC

Eight-foot width to accommodate even the tallest swimmers.

Smooth, broad swim current, 0:51 hundred-yard pace.

## Endless Pool Elite Coaches AV Package

- bottom and front underwater mirrors
- removable, overhead backstroke mirror
- 2 underwater color cameras
- software-based video record and playback (laptop required)

Front Mirror and Floor Mirror

Backstroke Mirror

“For years at Auburn I trained my athletes in an Endless Pool — but the Elite we put in at SwimMAC takes it to another level. It expands my ability to provide the best technical advice possible”
